

Arjun Malhotra

Technical Lead | .NET, Azure and Cloud Architecture

Gurugram, India • arjun.malhotra@example.com • [+91 98765 40123](tel:+919876540123) • [LinkedIn](#) • [GitHub](#) • [Medium](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Technical Lead with 11+ years of experience leading engineering teams and delivering cloud-native software across the complete SDLC. Specializes in .NET, Azure, microservices, event-driven integration, and enterprise platforms including Dynamics 365 and Salesforce. Known for translating business goals into pragmatic architecture, mentoring engineers, and improving delivery quality through clear technical standards and automation.

EXPERIENCE

Technical Lead Northbridge Digital Systems Pvt. Ltd. Gurugram, India	Apr 2021 – Present
- Lead a 12-member engineering team delivering .NET Core and Azure solutions for field service, workflow automation, and customer operations platforms - Defined microservices, CQRS, and event-driven integration patterns that reduced release dependencies and supported 99.9% service availability - Established standards for architecture reviews, code quality, automated testing, observability, and secure Azure deployments across four product teams - Partnered with product and business stakeholders to convert complex operational requirements into measurable delivery plans and technical roadmaps	
Senior Software Engineer CloudWorks Consulting India Pvt. Ltd. Noida, India	Jan 2017 – Mar 2021
- Designed REST APIs, background jobs, and Azure integrations for enterprise systems processing more than 2 million monthly records - Migrated legacy ASP.NET MVC workloads to ASP.NET Core services with Entity Framework and SQL Server, improving deployment frequency and maintainability - Built integrations between Dynamics 365, Salesforce, Microsoft Dynamics NAV, and third-party systems using Web API, Logic Apps, and Service Bus - Guided the adoption of automated testing with NUnit, MSTest, Moq, and NSubstitute for critical business workflows	
Software Engineer AppForge Technologies Pvt. Ltd. New Delhi, India	Jul 2014 – Dec 2016
- Delivered web applications and service integrations using C#, ASP.NET MVC, Web API, Entity Framework, and SQL Server - Built mobile and IoT workflows with Ionic, Angular, Xamarin Forms, Arduino, MQTT, and Azure IoT Hub	

SKILLS

Technical Leadership	Technical Strategy, Solution Architecture, Microservices, CQRS, Event-Driven Design, Team Mentoring, Code Reviews, Delivery Planning
.NET and Backend	C#, ASP.NET Core, .NET Core, Web API, Entity Framework, Dapper, LINQ, SQL Server
Azure and Integration	Azure Functions, Logic Apps, Service Bus, Event Hubs, Azure SQL, Web Apps, Key Vault, API Apps, Dynamics 365, Salesforce
Quality and Delivery	NUnit, MSTest, Moq, NSubstitute, Postman, Git, TFS, Jenkins, Hangfire
Web, Mobile and IoT	JavaScript, Angular, jQuery, Ionic, Xamarin Forms, Arduino, MQTT, Azure IoT Hub, RabbitMQ

EDUCATION

B.Tech in Computer Science and Engineering

Jan 2010 – Jan 2014

MGM's College of Engineering & Technology · Noida, Uttar Pradesh

Grade: First Division

PROJECTS

Field Service Resource Optimization Platform

Northbridge Digital Systems Pvt. Ltd.

Led the modernization of a map-driven scheduling platform matching field resources with service requirements by location, availability, and timing. Owned architecture, technical delivery, and integration reliability for a 12-member team.

.NET Core · ASP.NET Web API · Azure Functions · Azure Service Bus · Azure SQL · Azure Web Apps · Dynamics 365 Field Service

Candidate Compliance Workflow Platform

Northbridge Digital Systems Pvt. Ltd.

Designed a modular workflow platform for background verification and compliance activities, introducing service boundaries, asynchronous processing, and operational dashboards for high-volume workflows.

.NET Core · Microservices · CQRS · Entity Framework · Dapper · RabbitMQ · SQL Server · Jenkins

Enterprise CRM and ERP Integration Hub

CloudWorks Consulting India Pvt. Ltd.

Architected reliable interfaces between Dynamics 365, Salesforce, Microsoft Dynamics NAV, and partner systems with retry handling, monitoring, and secure message processing.

C# · Web API · Azure Logic Apps · Azure API Apps · Azure Service Bus · Dynamics 365 · Salesforce

Temperature-Controlled Inventory Monitoring

AppForge Technologies Pvt. Ltd.

Built an IoT prototype that captured temperature telemetry, evaluated threshold breaches, and raised corrective-action tickets in Dynamics 365 CRM for temperature-sensitive inventory.

C# · ASP.NET MVC · Arduino SDK · NodeMCU · MQTT · Azure IoT Hub · Stream Analytics · Chart.js · Google Maps
